

## OLLD23 – Water technology for a human centric green transition

### Sea-, Urban, Industrial Mining and regulatory aspects

<b>Location</b>	World Trade Center Barcelona 1ª planta Edif. Este, Moll de Barcelona, s/n, 08039 Barcelona, Spain
<b>Time and date</b>	Friday 22 <sup>nd</sup> September
<b>Session Hosts</b>	Water Europe, ENOLL media coverage Revolve
<b>Logistics</b>	Free access to Water and Score side events happening the 22 <sup>nd</sup> of September. Have a look at the full programme including the Learning Lab day in case of interest. Full programme: <a href="https://openlivinglabdays.com/">https://openlivinglabdays.com/</a> <a href="#">Downloadable agenda</a>

**Background:** As part of the European Commission's [New Innovation Agenda](#), the role of experimentation spaces ([Enabling innovation through experimentation spaces and public procurement](#)) have been widely emphasised. Recent Horizon calls refer to the need of studying and analysing regulatory frameworks that facilitate experimentation by innovators and enable learning and adaptation.

With this half a day workshop the intension is to raise awareness on the progress CIRSEAU cluster Living Labs have made, additionally, to highlight the role of water experimental and regulatory aspects and initiate the co-creation of a water regulatory sandbox positioning paper.

#### 14:00-14:30 WoLL Pitches: Water technology for a human centric green transition

**Aim:** Raising awareness about selected CIRSEAU Water-oriented Living Lab (WoLL) projects' technology readiness and citizen engagement towards green transition. The slot includes interaction with the audience.

Pitching Living Lab projects from CIRSEAU cluster:

- [Water-Mining](#)
- [Rewaise](#)
- [B-WaterSmart](#)
- [Ultimate](#)

**Moderation:** TU Delft (TBC)

### 14:30-15:30 Panel: WoLL's as regulatory sandboxes – Opportunities and bottlenecks

**Aim:** Identifying opportunities and analysing bottlenecks towards enabling regulatory sandboxes for constellations as Living Labs, taking a specific angle on Sea-Mining aspects.

Preliminary panel participating organisations:

Panel opening: Andrea Guerrini, President Wareg-European Water Regulator

D'Eugenio Joachim, Adviser for Zero Pollution - European Commission DG Environment (TBC)
Bernd Gawlik, Portfolio Leader Water Quality - Joint Research Centre (TBC)
Pascual Fernández, President - AEAS - Spanish Water and Wastewater Association
Jess Alce, Innovation portfolio lead, Severn Trent - CIRSEAU Living Lab representing regulatory and operational aspects (TBC)

**Moderation:** Water Europe

### 15:30-15:45 Coffee break

### 15:45-17:00 Co-creation workshop:

**Aim:** Reflection on the panel from the audience and co-creation of new input/policy paper from a multi stakeholder background and participating projects with the aim to kickstart the advocacy process for WoLLs as regulatory sandboxes.

**Moderation:** ENOLL

---

As part of the Sea Pillar of the CIRSEAU projects, all participants are equally invited to the morning session on Coastal Living Labs, hosted by Score project:

### Lessons learned from the Living Labs established to tackle Climate Change and Ocean Literacy

The SCORE workshop is entitled “Lessons learned from the Living Labs established to tackle Climate Change and Ocean Literacy”. During this event, Living Labs tackling climate change and ocean literacy will share their experiences and discuss the challenges and successes of projects related to climate change, environment, and ocean literacy. Several case studies will be presented, followed by panel discussions.

The case studies will focus on:

- How Living Labs can contribute to the transition towards a more sustainable society;
- How Living Labs can help to develop, test, and implement innovative solutions (or by applying digital platforms) to tackle climate change and ocean literacy by involving citizens and stakeholders in the co-creation process;
- How Living Labs can contribute to the development of a new paradigm of innovation that is more human-centred, democratic, and sustainable.

If you are participating in the Open Living Lab Days, the SCORE team will also hold a booth on 21 and 22 September. Come meet us!

<b>SCORE Workshop: Practical information</b>
<b>Date:</b> 22 September 2023, from 9:30 to 12:30 (CEST)
<b>Location:</b> World Trade Center in Barcelona.
<b>Registration:</b> <i>A registration form will soon be available.</i>
The SCORE workshop is <b>free of charge</b> .
